Self-initiated Requirement: Gas Tank Cars, Baku

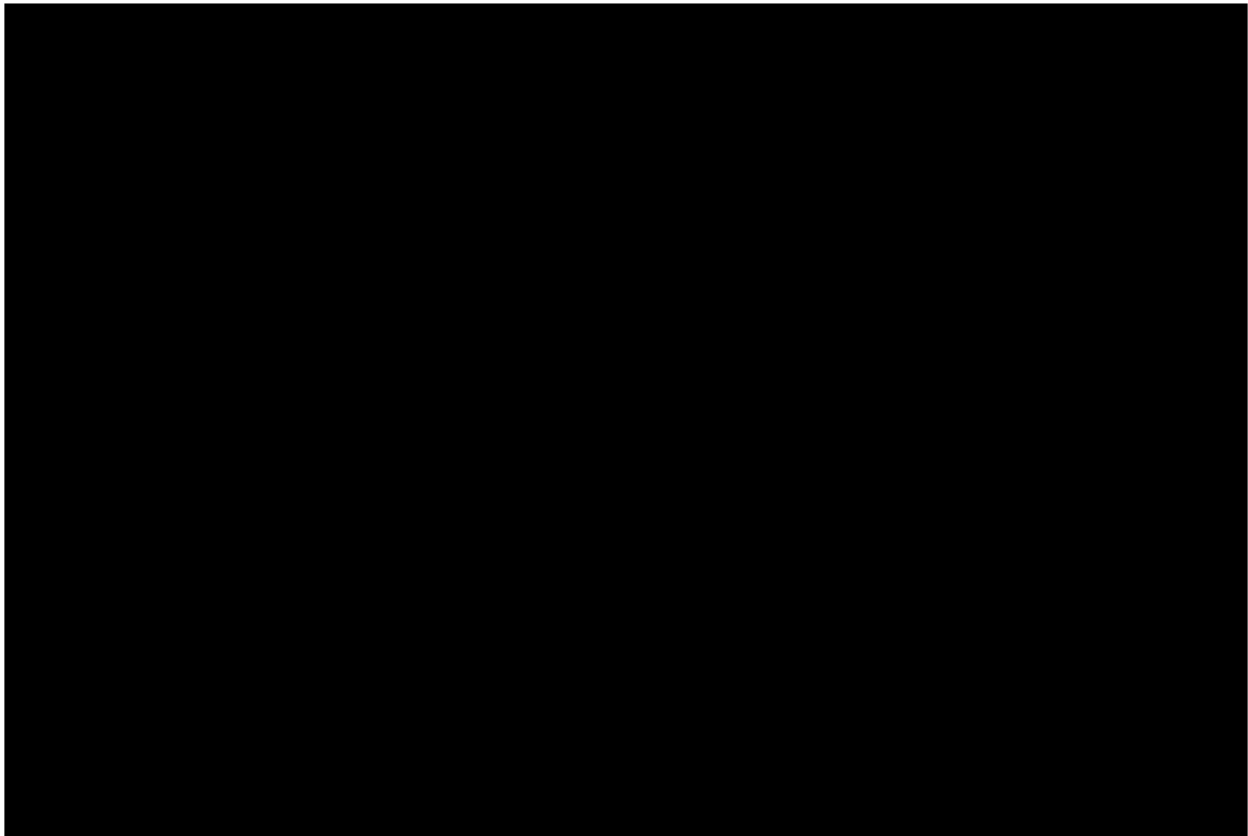

25X1A2g

RRT : 

BACKGROUND

1. Referenced report, by a Western traveler (Y), states that "in early August 1959, during a rail trip from Baku to Tbilisi, a great number of oil and gas tank cars were observed passing and on sidings. The gas cars were light brown and clean; the oil cars were black and dirty. Most of them were manufactured in 1957 or 1958."
